**Instructions**

Four tables have been provided which correspond to the four academic years to complete your baccalaureate degree. Using the honors designated course portfolio, plan the honors courses that you will register and complete by semester. To complete The Honors Program, you must complete twenty-four (8 three-credit classes) credits of honors courses. Each member must also complete HON490 (Senior Honors Project); this course qualifies as an honors course. This course requires senior-standing (90+ credits) and at least seven honors courses completed. HON490 can be elected either in the fall or spring.

A sample of a completed form is shown below. The actual form is on page 2 of this document. Be sure to write your name, sign and date the form before submitting.
